# Energy-Efficiency Contractor Programs

The Gas Company<sup>SM</sup> is committed to providing safe and reliable energy and exceptional service. As part of that commitment, we offer many money-saving programs that help customers use energy more efficiently. In addition to our own energy-saving programs, we'd like to share with you information about other energy-saving programs offered by independent contractors.

These contractor programs were awarded through a competitive bid process and operate under the auspices of the California Public Utilities Commission (CPUC), with oversight administered either solely by The Gas Company or jointly with Southern California Edison. Here are the current contractor programs.

## Residential Programs

**Comprehensive Mobile Home Program:** Provides qualifying mobile home customers with no-cost energy conservation evaluations, installations of low-flow showerheads and faucet aerators, and gas energy efficiency improvements, such as duct test and seal of HVAC systems.

## Business Programs

**Commercial Laundry Program:** Saves gas or electricity and water in multi-family housing and laundromats by replacing

inefficient washers and by providing pipe insulation. The program also provides rebates for qualifying machines to encourage the early retirement of inefficient washers. The customers are expected to replace the machines themselves.

The additional measures that the contractor provides include pipe wrap, Energy Star CFL's, and T12 to T8 (lighting measures) with Electronic Ballast. These measures are only provided in connection with a washer replacement. Southern California Edison customers are eligible for the electricity measures, and The Gas Company's customers are eligible for the pipe wrap.
