

**SOUTHERN CALIFORNIA GAS COMPANY
SAN DIEGO GAS AND ELECTRIC COMPANY
Low OFO and EFO Application (A.14-06-021)
(1st DATA REQUEST FROM THE INDICATED SHIPPERS)
Revised Response sent October 21, 2014**

QUESTION 7:

Please specify the cost per Dth to noncore end-use customers for each increase in storage withdrawal allocation.

RESPONSE 7:

Under the current TCAP, every 100,000 dth/day of increase in storage withdrawal allocation to the balancing function results in a 0.009 cent/therm increase in noncore end-user rates.
