

## **PALISADES/EATON FIRE UPDATE**

SoCalGas is actively monitoring multiple evacuations zones and evacuation warnings for the Palisades Fire in Los Angeles County. As of 6PM, the Palisades Fire is burning approximately 1261 acres with 0% containment.

At this time, SoCalGas crews are on site and standing by to access impacts. Currently we have not received reports of customer outages or damage to SoCalGas infrastructure.

Although there are no impacts at this time, SoCalGas may be required to shut off service due to public safety in the Northeast section of the mandatory evacuation zone.

For safety reasons, customers should not try to restore natural gas service on their own. Customers should call **1-800-427-2200** if they experience a service disruption or suspect a natural gas leak.
