**Date Requested: March 31, 2020
Date Responded: April 10, 2020**

PRELIMINARY STATEMENT

1. These responses and objections are made without prejudice to, and are not a waiver of, SDG&E's and SoCalGas' right to rely on other facts or documents in these proceedings.
2. By making the accompanying responses and objections to these requests for data, SDG&E and SoCalGas do not waive, and hereby expressly reserves, its right to assert any and all objections as to the admissibility of such responses into evidence in this action, or in any other proceedings, on any and all grounds including, but not limited to, competency, relevancy, materiality, and privilege. Further, SDG&E and SoCalGas makes the responses and objections herein without in any way implying that it considers the requests, and responses to the requests, to be relevant or material to the subject matter of this action.
3. SDG&E and SoCalGas will produce responses only to the extent that such response is based upon personal knowledge or documents in the possession, custody, or control of SDG&E and SoCalGas, as set forth in the California Public Utilities Commission ("Commission or CPUC") Rules of Practice and Procedure. SDG&E and SoCalGas possession, custody, or control does not include any constructive possession that may be conferred by SDG&E's and SoCalGas' right or power to compel the production of documents or information from third parties or to request their production from other divisions of the Commission.
4. A response stating an objection shall not be deemed or construed that there are, in fact, responsive information or documents which may be applicable to the data request, or that SDG&E and SoCalGas acquiesces in the characterization of the premise, conduct or activities contained in the data request, or definitions and/or instructions applicable to the data request.
5. SDG&E and SoCalGas expressly reserves the right to supplement, clarify, revise, or correct any or all of the responses and objections herein, and to assert additional objections or privileges, in one or more subsequent supplemental or additional response(s).
6. Publicly available information and documents including, but not limited to, documents that are part of the proceeding record, newspaper clippings, court papers, and materials available on the Internet, will not be produced.

GENERAL OBJECTIONS

1. SDG&E and SoCalGas object to each instruction, definition, and request to the extent that it purports to impose any requirement or discovery obligation greater than or different from those under the CPUC Rules of Practice and Procedure, Statutes, and the applicable Orders of the Commission.
2. SDG&E and SoCalGas object to each request that is overly broad, unduly burdensome, or not reasonably calculated to lead to the discovery of admissible evidence.
3. SDG&E and SoCalGas object to each instruction, definition and data request to the extent that it seeks information protected from disclosure by the attorney-client privilege, deliberative process privilege, attorney work product doctrine, or any other applicable privilege. Should any such disclosure by SDG&E and SoCalGas occur, it is inadvertent and shall not constitute a waiver of any privilege.
4. SDG&E and SoCalGas object to each instruction, definition and data request as overbroad and unduly burdensome to the extent it seeks documents or information that are readily or more accessible to Southern California Generation Coalition (SCGC) from SCGC's own files, from documents or information in SCGC's possession, or from documents or information that SDG&E and SoCalGas previously released to the public or produced to SCGC. Responding to such requests would be oppressive, unduly burdensome, and unnecessarily expensive, and the burden of responding to such requests is substantially the same or less for SCGC as for SDG&E and SoCalGas.
5. SDG&E and SoCalGas object to each instruction, definition and data request to the extent that it seeks the production of documents and information that were produced to SDG&E and SoCalGas by other entities and that may contain confidential, proprietary, or trade secret information.
6. To the extent any of SCGC's data requests seek documents or answers that include expert material, including but not limited to analysis or survey materials, SDG&E and SoCalGas object to any such requests as premature and expressly reserves the right to supplement, clarify, revise, or correct any or all responses to such requests, and to assert additional objections or privileges, in one or more subsequent supplemental response(s) in accordance with the time period for exchanging expert reports set by the Commission.
7. SDG&E and SoCalGas incorporate by reference every general objection set forth above into each specific response set forth below. A specific response may repeat a general objection for emphasis or some other reason. The failure to include any general objection in any specific response does not waive any general objection to that request. Moreover, SDG&E and SoCalGas do not waive their right to amend any responses.

QUESTION 1:

Please provide the SoCalGas and SDG&E response to the Public Advocates Office to Data Request No. ORA-L1600-SCG-106. If any portion of the SoCalGas and SDG&E response was marked as being confidential, please provide that portion under SCGC's Non-Disclosure Agreement in A.15-09-013.

RESPONSE 1:

SDG&E and SoCalGas (jointly, Utilities) object to this data request on the following ground: D.20-02-024, recognizing the time and effort required to prepare Class 3 cost estimates for the 19 separate projects to be undertaken pursuant to the Utilities' Line 1600 hydrostatic test or replacement plan (Line 1600 Plan) approved by the Safety & Enforcement Division (SED), provided the Utilities six months from the date of issuance of the Decision (to August 12, 2020) to prepare and file the required cost information. Thereafter, the intervening parties are to submit comments, after which a prehearing conference will be held and a scoping memo issued. D.20-02-024 also requires the parties to meet and confer regarding any cost information that intervenors believe is missing from the Utilities filing before the prehearing conference is scheduled. D.20-02-024 at 40-41, 59 (OP 4). The Utilities do not believe that the Commission has authorized party discovery before the Utilities have had the six months allotted to prepare the required cost information, meet and confer regarding any claims of deficiency, and the prehearing conference is held. Therefore, the Utilities object to SCGC's Data Request 26, and decline to respond to such Data Request.

Furthermore, the Utilities do not concede that the subject matter of ORA DR 105 and 106, the Utilities' response or any documents, data or materials produced with such response are within the scope of Phase 2 in this proceeding, as set forth in D.20-02-024, or admissible in evidence in Phase 2. Subject to and without waiving the foregoing objections, and only as a courtesy, the Utilities provide SCGC with a copy of the Utilities' response to the Public Advocates Office's Data Request No. ORA-L1600-SCG-106.
