|  | W Vince | Jim N.    | X |   | X | Maria |  |  | Customer can't handle loud noises. Informed us that the noise from construction down the street is hurting her ears. She wanted to know what SCG was doing down her street. The construction is from Ventura Water. #52 W Vince had a water leak and the Ventura Water crew is out digging and fixing the issue.  |
|  | W Vince | Jim N.    | X |   | X |       |  |  | Customer was upset with SCG because he doesn't want the project to take place. Said no one was notified of the project beforehand, no meetings no notification. Provided info re: virtual community meetings that were held to inform residents of the modernization work. Customer mentioned a city council meeting where the project was on the agenda. He said the community asked SCG about 50 questions regarding the project during the meeting, however, he stated that SCG failed to answer any of them. Customer also stated that the School is against the project. The School and the community told SCG to stop the project, but SCG won't listen. Customer also indicated SCG started a project within the community without first obtaining the required permits. Customer declined to receive newsletter and angrily demanded outreach PM to get off his property. |
